

# INVESTMENT-GRADE AUDIT

## A COMPLETE ENERGY ANALYSIS

Energy expenses are among a business's largest controllable costs. During the course of an investment-grade audit, American Energy Services collects relevant utility data to assess your facility's energy consumption.

This enables our team to assess the impact improved energy technology could have on your facility. We target a savings of 50-75% per month on your energy costs, and the audit is the first step towards those savings.

With efficient LED lighting and an industry-defining suite of energy solutions, you will have the opportunity to rededicate resources away from overhead and back to your business.

With a proper evaluation of your space, we will uncover areas where energy is wasted, address hazard zones where improper lighting creates risk, and help you on your way toward lower costs and improved environments.

### Product Highlights

- Access potential energy savings—up to 75%
- Full-scale property evaluation
- Identify high-risk areas
- Establish unique plan for your energy needs
- Facility Report Card

### Assessment

Buildings that go too long without a refresh will see rising energy costs, increased maintenance requests and decreased visual comfort.

### Efficient Use

Inefficient buildings waste significant amounts of energy—up to 30% per month—on misused lighting, such as empty rooms. An energy audit will assess and identify these spaces.

### Safer Facilities

Underperforming and outdated lighting contributes to key safety concerns. Comply with local codes and reduce your maintenance costs.

# Clear Solutions for Energy Efficiency

## AES COMMITMENT TO SERVICE

For over 15 years, American Energy Services has been a trusted provider of single and multi-product energy solutions. AES is dedicated to delivering **cost-effective energy solutions** and establishing long-term relationships with commercial and public customers based on exacting technical and ethical standards and achieving measurable results.

At AES we believe in earning the respect and trust of our clients, and after more than a decade of providing clients with full turnkey solutions we still hold fast to that foundational belief.

American Energy Services leverages **a national network** of AES offices and certified partners serving small businesses, Fortune 500 companies, government agencies, healthcare facilities, property management companies, and schools and universities.

Understanding the unique needs of your building is our priority. With this assessment, we are able to provide you with a plan to improve your environment as well as your budget.
